\*From the Undergraduate Catalog: "Directed Study (Econ 698 or 699) enables advanced students to pursue economic topics not covered in the regular course offerings. A student interested in directed study should prepare a research proposal and/or reading list; specific course requirements are arranged with an instructor who agrees to supervise the directed study project. In most cases, a paper will be required. Registration requires consent of instructor, a GPA of 2.5 or above in Economics, and completion of the departmental Directed Study form"
